Peer Review Process for The Biochips Handbook

As indicated in the *Guidelines to Authors for Preparing Manuscripts*, we ask that all primary authors provide us with the names and complete contact information (including e-mail addresses) of four potential reviewers you feel are familiar with the field of your chapter.

The Editors and Marcel Dekker will invite the four potential reviewers to review your manuscript. A copy of the manuscript, Peer Reviewer Instructions, and the Reviewer's Comments form will be sent to at least two peer reviewers. Peer reviewers will be accorded six weeks to complete the review of your chapter. After both peer reviews have been returned to the Editors, they will make additional comments. These comments, along with the peer reviewer's comments, will be returned to the listed primary author for possible manuscript revisions. A due date for submitting your revised manuscript will be provided by the Editors and Marcel Dekker.

The following *Peer Reviewer Instructions* will be sent to the Peer Reviewers:

The enclosed manuscript has been submitted for publication to The Biochips Handbook. Your comments on the quality and suitability of the following areas would be greatly appreciated:

- Technical accuracy
- Up-to-date information and references
- Clarity of presentation (equations, figures, tables, photos)
- Format (form, content, length)
- Possible revisions to improve the coverage of this topic

The Biochips Handbook will be used worldwide by professionals in industrial and university libraries and is focused on an audience whose experience and education is at least at the level of a bachelor's or master's degree in engineering, physics, chemistry, biology, etc. It will be used for a complete subject overview, for specific information, and as a starting point for a detailed literature search.

Please use the attached form for your review and add any additional pages you need. You will not be identified as a reviewer unless you wish your name to be used. Please send your review to us within the next four weeks using the enclosed envelope. Thank you for your expert assistance in the preparation of this Handbook.

Please contact:

Mr. Eric Stannard, Marcel Dekker, Inc., 270 Madison Avenue, New York, NY 10016-0602, USA
E-mail: estannard@dekker.com for additional information regarding the review process.
