Dr. William Clark  
Dept. of Engineering and Science Education  
104 Holtendorff Hall  
Clemson University  
Clemson, SC 29634-0902

Dr. Clark:

Thank you for your letter requesting permission to documentation of the Artisan Organ you and your students are renovating. Permission is granted with great thanks on our part, since this may be the last remaining documentation available on these fine organs of the past.

We have looked at your web site, but note that nothing related to the organ project has yet been posted. We will check back now and then, but in the meantime if we can be of any further assistance to you, please let us know.

Regards,

Red Carlson, Mgr.
