

## Six Sigma Certification

Six Sigma training is designed to improve technical problem solving skills using statistical tools and the Six Sigma methodology approach to create cost savings; contributing significantly to the bottom-line success of your organization.

Who should attend?

Engineers and managers involved in quality improvement initiatives from both manufacturing companies and service sectors.

## → Six Sigma

"I enrolled in the Clemson Six Sigma Green belt program as a way to update my IE degree as I prepared to transition from the US Air Force to the civilian world. A month later, I was hired by Detica Inc. as a consultant...This latest blessing in my life once again confirms that Six Sigma training at Clemson University was the right choices for me!" - Capt. W. Davis

**Associated Technologies**

**Nestle USA**
