

## PUBLICATION LIST

Joseph R. Manson  
Department of Physics and Astronomy  
Clemson University

28 January, 2009

1. N. Cabrera, V. Celli, and J. R. Manson, "Theory of Surface Scattering and Detection of Surface Phonons", *Physical Review Letters* **22**, 346 (1969).
2. J. R. Manson, V. Celli, and B. DuVall, "Induction of Circuits Containing a Superconducting Plate", *Journal of Applied Physics* **40**, 3075 (1969).
3. N. Cabrera, V. Celli, F. O. Goodman, and J. R. Manson, "Scattering of Atoms From Solid Surfaces I", *Surface Science* **19**, 67 (1970).
4. J. R. Manson and V. Celli, "Inelastic Surface Scattering of Non-Penetrating Particles", *Surface Science* **24**, 495 (1971).
5. J. R. Manson, "Simple Model for the Energy Accommodation Coefficient", *Journal of Chemical Physics* **56**, 3451 (1972).
6. J. R. Manson, "Transition Matrix for Single Phonon Inelastic Surface Scattering", *Journal of Chemical Physics* **57**, 4504 (1972).
7. J. R. Manson, "Energy Accommodation Coefficient for Simple Models of the Surface", Eighth International Symposium on Rarefied Gas Dynamics, AFOSR-TR-71-1276 (1972).
8. J. R. Manson, and M. Sherrill, "Fluxons in Dual Thin Films", *Physical Review B* **11**, 1066 (1975).
9. B. Gaffney and J. R. Manson, "Energy Accommodation Coefficient for Square Well and Morse Potentials", *Journal of Chemical Physics* **62**, 2508 (1975).
10. J. R. Manson and John Tompkins, "Two-Phonons Contributions to the Energy Accommodation Coefficient", Proceedings of the 10<sup>th</sup> International Symposium on Rarefied Gas Dynamics, Progress in Astronautics and Aeronautics **51**, 603 (1977)
11. G. Armand and J. R. Manson, "Inelastic Scattering of Neutral Atoms by a Corrugated Hard Wall", *Nederlands Tijdschrift voor Vacuumtechniek* **16c 2/3/4**, 342 (1978).
12. G. Armand and J. R. Manson, "Scattering by a Hard Corrugated Wall: An Exact Solution", *Physical Review B* **18**, 6510 (1978).
13. J. R. Manson and G. Armand, "Scattering of Atoms by a Corrugated Potential Wall of Finite Height", Proceedings of the 11<sup>th</sup> International Symposium on Rarefied Gas Dynamics in *Rarefied Dynamics*, R. Compangue, editor CCEA, Paris, 1373 (1979).
14. G. Armand and J. R. Manson, "Elastic and Inelastic Scattering of Neutral Atoms by a Corrugated Hard Wall", *Surface Science* **80**, 532 (1979).
15. G. Armand and J. R. Manson, "Scattering from a Corrugated Hard Wall: Comparison of Boundary Conditions", *Physical Review B* **19**, 4091 (1979).
16. G. Armand, J. Lapujoulade, and J. R. Manson, "Hard Corrugated Wall Potential: Numerical Calculation of Diffracted Peak Intensities for Any Type of Corrugation", *Surface Science* **82**, L625 (1979).
17. J. R. Manson, G. Armand and J. Lapujoulade, "On the Fourier Components of the Atom-Surface Scattering Potential", *Surface Science* **82**, L593 (1979).
18. J. R. Manson and G. Armand, "Scattering of Atoms by a Corrugated Potential Wall of Finite Height", *Physical Review B* **20**, 5020 (1979).
19. G. Armand and J. R. Manson, "Scattering of Neutral Atoms by an Exponential Corrugated Potential", *Physical Review Letters* **43**, 1839 (1979).
20. N. Garcia, V. Celli, and J. R. Manson, "Recent Analysis of Accommodation Coefficients of Light Atoms", *Journal of Chemical Physics* **22**, 3436 (1980).

21. J. R. Manson and R. H. Ritchie, "Self-Energy of a Charge Near a Surface", *Physical Review B* **24**, 4867 (1981).
22. G. Armand and J. R. Manson, "Scattering of Neutral Particles by and Exponential Corrugated Potential: A Solution for High Corrugation Amplitude", *Physical Review B* **25**, 6195 (1982).
23. G. Armand and J. R. Manson, "An Exact Iterative Solution of the Atom-Surface Scattering Problem for Realistic Potentials", *Surface Science* **119**, L299 (1982).
24. J. G. Mantovani and J. R. Manson, "Simple Approach to Refraction Effects in Atom-Surface Scattering", *Surface Science* **120**, L487 (1982).
25. G. Armand, J. Lapujoulade, J. R. Manson, J. Perreau, and B. Salanon, "Scattering of Low Energy Atoms by surfaces: The Helium-Copper Systems", *Israel Journal of Chemistry* **22**, 298 (1982).
26. J. R. Manson and G. Armand, "Band Structure of an Atom Adsorbed on a Surface: Application to the He/Cu (113) System", *Surface Science* **126**, 681 (1983).
27. G. Armand and J. R. Manson, "Scattering of Neutral Atoms by a Periodic Potential: The Morse Corrugated Potential", *Journal de Physique* **44**, 473 (1983).
28. R. H. Ritchie, T. L. Ferrell, and J. R. Manson, "Boson Creation by an Atom Moving Near a Surface", *Physical Review B* **29**, 1080 (1984).
29. J. R. Manson, R. H. Ritchie "Attractive Atom-Surface Interaction: Saturation Effects in Positronium", *Physical Review B* **29**, 1084 (1984).
30. J. R. Manson and R. H. Ritchie, "The Attractive Interaction Between an Atom and a Surface", *Nuclear Instruments and Methods* **B2**, 422 (1984).
31. J. G. Mantovani, J. R. Manson, and G. Armand, "Thermal Attenuation in Resonant Atom-Surface Scattering", *Surface Science* **143**, 536 (1984).
32. J. R. Manson, J. G. Mantovani, and G. Armand, "The Soft Potential in Resonant Atom-Surface Scattering", *Dynamics on Surfaces*, B. Pullman et al., eds. (D. Reidel, 1984) 23.
33. G. Armand and J. R. Manson, "An Exact Theory of Inelastic Atom Surface Scattering: The 'Debye-Waller' Factor", *Dynamics on Surfaces*, B. Pullman et al., eds. (D. Reidel, Dordrecht 1984), 59.
34. G. Armand, and J. R. Manson, "Inelastic Low-Energy Atom-Surface Scattering", *Physical Review Letters* **53**, 1112 (1984).
35. G. Armand, J. Lapujoulade, J. R. Manson and J. Perreau, "An Iterative Solution to the Surface Scattering Problem: Application to He Diffraction by Cu", *Proceedings of the 13<sup>th</sup> RGD Symposium*, 637 (1985).
36. C. S. Jayanthi, G. Armand, and J. R. Manson, "Anharmonic Effects in Atom-Surface Scattering: He/Cu (100)", *Surface Science* **154**, L247 (1985).
37. J. R. Manson and R. H. Ritchie, "Completely Quantal Treatment of the Van der Waals Forces Between Atoms: Applications to Positronium", *Physical Review Letters* **54**, 785 (1985).
38. J. R. Manson and R. H. Ritchie, "Recoil in Electron-Atom Scattering", *Physical Review A* **32**, 3782 (1985).
39. G. Armand and J. R. Manson, "Threshold Resonances in the Diffraction of Atoms and Molecules by Surfaces", *Surface Science* **169**, 216 (1986).
40. A. M. Lahee, J. R. Manson, J. P. Toennies and Ch. Wöll, "Observation of Interference Oscillations in Helium Scattering from Single Surface Defects", *Physical Review Letters* **57**, 471 (1986).
41. G. Armand, J. R. Manson and C. S. Jayanthi, "Thermal Attenuation in Atom-Surface Scattering: The Two Phonon Contribution", *Journal de Physique* **47**, 1357 (1986).
42. J. R. Manson and R. H. Ritchie, "Corrections to Van der Waals Forces", *Physical Review Letters* **57**, 261 (1986).
43. G. Armand, J. R. Manson and C. S. Jayanthi, "Thermal Attenuation in Atom-Surface Scattering: The Multiphonon Contribution", *Physical Review B* **34**, 6627 (1986).
