

E-Mentoring Program

The Women In Science & Engineering Program at Clemson University would like to introduce to you a new mentoring opportunity. Sometimes we all need a little advice, coaching and encouragement. Often it is less threatening to meet people and ask questions in the anonymity of Email. This is why WISE created the E-Mentoring Program.

The goals of the E-Mentoring Program are:

- ❖ To provide students with a professional mentor;
- ❖ To provide students with a source of information about careers and industry.
- ❖ To provide a source of encouragement and advice.

A Mentor can:

- ❖ Encourage
- ❖ Listen
- ❖ Give advice
- ❖ Relay personal and professional experiences
- ❖ Share expertise

If you would like to participate in the E-Mentoring Program, please complete the form to the right, cut and expose the address and deposit it in the mail.

For more information please contact:
